

WHITEPAPER V1.0

JUNE ——— 2021

INTRODUCTION

EXCHANGE OF
DIGITAL ASSETS CAN
BE DIFFICULT BUT
MINT MAKES IT EASY
FOR ITS USERS

INTRODUCTION

NOW YOU CAN
EXPLORE THE WORLD
OF DIGITAL ASSETS

Digital assets have become the new world order in terms of gaining financial sovereignty. It is no secret that many people have thronged on Cryptocurrency, NFTs, and other digital assets. As of 2009, the only Cryptocurrency that was heard of was Bitcoin, which was less than a dollar. Since then, Bitcoin has risen above \$30,000, and more cryptocurrencies have emerged. Some of the popular ones are Ethereum, Ripple, and Litecoin.

The prevalence of Cryptocurrency has given room for altcoins to gain prominence. Dogecoin, Safe moon, Shiba, and others with solid backing from celebrities fill people's portfolios.

We are in the age of digital currencies. Interestingly, these digital assets are traded securely without a centralized system, making many people opt for their primary payment option. Now you can buy products & services using digital currencies.

The era of Cryptocurrency has ushered us into the world of non-fungible tokens. There are now many exchanges that offer NFTs in exchange for FIAT currencies and vice versa. With people taking note of the immense opportunities in these various digital assets, you must have the right exchange for getting good value for your money. This is where **MINT** comes in.

WHY MINT?

MINT is an exchange platform that supports a wide range of digital assets from **Cryptocurrency, NFTs** and rewards people for their commitment. It is an interconnected marketplace where people can exchange **digital assets** for money.

In a world where there are many difficult and insecure exchanges, **MINT** offers a safe, simple and secure platform for stakeholders to get a reward for their money.

DECENTRALIZED SYSTEM

It operates a decentralized system run on **blockchain technology**, making it one of the most secure platforms out there currently.

MINT also offers stakeholders a peer-to-peer or swap technology platform for Forex, Cryptocurrency, and NFT enthusiasts.

SECURE PEER TO PEER TRANSACTIONS

MINT also offers stakeholders a **peer-to-peer** or swap technology platform for Forex, Cryptocurrency, and NFT enthusiasts.

MINT has its infrastructure that supports **FIAT gateways** which is a valuable service to the market. Our platform facilitates liquidity, easy trading, and price discovery.

We also have a system that is impenetrable by hacks which many exchange platforms suffer from.

VISION

To increase the adoption of **digital assets** by people all over the world and get outstanding rewards for their money.

MISSION

To create a secure platform where people can exchange **cryptocurrencies, NFTs**, and other digital assets easily and effectively without any third parties.

INTRODUCING
MINT STAKING

Mint Staking is a community project that is totally **decentralized**, It operates in the field of private peer to peer funding and exchange of digital assets. We focus only on **Money, Investing, Networking & Traveling**.

The system has a diversified portfolio of projects, which the MINT team uses to generate stable profits and provide high returns for our **Stake Holders**.

In a bid to fully provide a wide range of options in terms of digital assets, MINT will also be trading **Forex & Options** using our award winning Robots.

MIN T STAKING SOLUTIONS

EASY ACCESS FOR USERS

With the **user-friendly interface** and easy-to-use Features, anyone interested in generating more income can use the platform anywhere in the world.

SECURITY

Our exchange platform runs on **blockchain technology** which has secured all transactions. Therefore, all users' details can only be seen and verified by the user that initiated a trade

PERFORMANCE

MINT staking offers a fast and reliable exchange platform for users with efficient networks for them to trade.

SMART CONTRACTS

There is an availability of fully automated **smart contracts** that enhances the efficiency and staking rewards.

MIN T STAKING TOKEN

Mint token stake holders will have the opportunity to earn passive income & bonuses just by purchasing & holding our tokens.

We named our token M.I.N.T for ease and identity.

Our **M.I.N.T token** is available for different digital assets and users can trade M.I.N.T token for **cryptocurrency, Forex, NFTs**. The possibilities are endless with this platform.

TOKENOMICS

M.I.N.T token is fast and reliable in terms of performance as users get confirmation of an exchange within seconds.

There would be **1,000,000,000** token available for users. However, **1,000,000** MInt tokens will be held by **MINT founders**.
